

ACCESS Pharmacy[®]

Current Practices. Patient-focused Care.

The most complete and authoritative online
resource for pharmacy education today

Essential information meeting all pharmacy education needs . . . for students, instructors, and practicing pharmacists.

AccessPharmacy® from **McGraw-Hill Medical** is a comprehensive, content-rich online pharmacy resource that allows users to explore leading pharmacy references, search curriculum topics, and research drugs and supplements—all in one place. Updated regularly, it gives **pharmacy students** instant access to videos, self-assessment, and leading pharmacy textbooks that will

establish an important foundation for learning; enables **pharmacy instructors** to create, track, and report their students' progress through a curriculum workflow tool; and allows **practicing pharmacists** to get information instantly about drugs, herbs and supplements, and consult features and editorials from leaders in the field.

Connect instantly to the fully searchable and complete content of 30+ leading pharmacy textbooks, such as:

- > Pharmacotherapy: A Pathophysiologic Approach
- > Applied Biopharmaceutics and Pharmacokinetics
- > Basic & Clinical Pharmacology
- > Casarett & Doull's Essentials of Toxicology
- > Drug Information: A Guide for Pharmacists
- > Goldfrank's Toxicologic Emergencies
- > Goodman & Gilman's The Pharmacological Basis of Therapeutics
- > Harrison's Principles of Internal Medicine
- > Pharmacotherapy Casebook
- > Pharmacy Management: Essentials for All Practice Settings

For a complete list of textbooks, visit the Readings tab on accesspharmacy.mhmedical.com

Tailored to your pharmacy program

Custom Curriculum is a powerful curriculum workflow tool that enables **pharmacy faculty** to customize and manage students and residents training from one convenient site.

With **Custom Curriculum**, instructors can:

- Build curriculum-specific topics, using assessment and test elements to track individual student or resident progress
- Match their program's unique education structure
- Provide targeted and trackable remediation

Pharmacy students and residents can study procedures and test themselves, as well as track their performance, using faculty-selected resources.

Powerful tools and features deliver indispensable clinical and educational support.

Extensive Multimedia Library—Simplify complicated concepts presented in terms that students can understand through a unique collection of detailed drug interaction animations, adapted from the world's most respected medical text in pharmacology, *Goodman & Gilman's The Pharmacological Basis of Therapeutics*, plus evaluation and treatment recommendations from *Pharmacotherapy*. Pharmacy students can also acquire essential knowledge needed to become an integral part of a health care team through videos illustrating fundamental medical concepts drawn from *Harrison's Principles of Internal Medicine*.

Quick Answers—Concise outlines of common conditions and disorders at your fingertips—whether used as a high-yield review for studying or for quick reference in the clinical setting.

Drug Therapy Cases—Apply more than 150 drug-therapy cases with questions and care plans that students can design and submit to faculty to aid in critical thinking and problem analysis. To make the course director's job even easier, a secure instructor's guide with an organized answer key is also available.

Self-Assessment—Make preparing for boards and test-taking easier with 10,000+ Q&A in basic science, pharmacotherapy, and NAPLEX review. Users can rate their skills and identify their strong and weak areas or quiz themselves on need-to-know medications.

Topics in Evidence-Based Pharmacy Practice—Make better decisions through select features and editorials that help students, faculty, and clinicians sort through a vast amount of available pharmaceutical information and provide critical appraisals of studies and trials and recommendations.

Integrated Drug Database—Look up dosing, indications, and adverse reactions through an updated drug database including thousands of generic and brand-name drugs—along with an herb/supplement database with more than 1,100 unique entries.

Patient Education—Comprehensive, reliable healthcare information for adults, pediatrics, medicines, and acute settings available in multiple languages.

The AccessPharmacy Advisory Board

Our preeminent Advisory Board includes two of the field's top academic experts:

Editor-in-Chief

Terry L. Schwinghammer, PharmD
West Virginia University School of Pharmacy

Associate Editor

Joseph T. DiPiro, PharmD
University of South Carolina and the Medical University of South Carolina

AccessPharmacy can be viewed on any device—
making it easy to get information instantly.
